# Amazon Top 50 Bestselling Books 2009 - 2019

This document provides an overview of the most popular books on Goodreads from 2009 to 2019, based on the number of reviews. It also delves into the genre breakdown and possible explanations for the distribution.

**Graph1: Most popular authors from 2009-2019**

Here are some key insights derived from the chart:

- E.L. James emerges as the most widely reviewed author, amassing over 160,000 reviews. This phenomenon can be attributed to the immense success of her "Fifty Shades of Grey" trilogy, which achieved global acclaim.
- Noteworthy authors such as Suzanne Collins, Della Owens, Paula Hawkins, J.K. Rowling, and Jeff Kinney also feature prominently. Their works, adapted into successful movies or TV shows, have significantly contributed to their widespread popularity.
- The inclusion of both fiction and non-fiction authors in the list highlights the diverse reading interests prevalent among the general public.
- The chart reveals a steady increase in the number of reviews over the years. This upswing could be influenced by various factors, such as the rising popularity of online book reviews, an expanding repertoire of published books, or shifts in reader demographics.

It's crucial to acknowledge that the graph exclusively reflects review quantity, omitting information on the average rating of these reviews. While E.L. James accrues the highest number of reviews, the quality of her books may not necessarily correlate with this volume. Additionally, the dataset solely encompasses Amazon reviews, limiting its representativeness across all reader demographics.

In essence, the graph provides a captivating snapshot of public reading preferences from 2009 to 2019. It underscores the widespread popularity of diverse authors and signifies a growing trend in the number of reviews submitted over time.
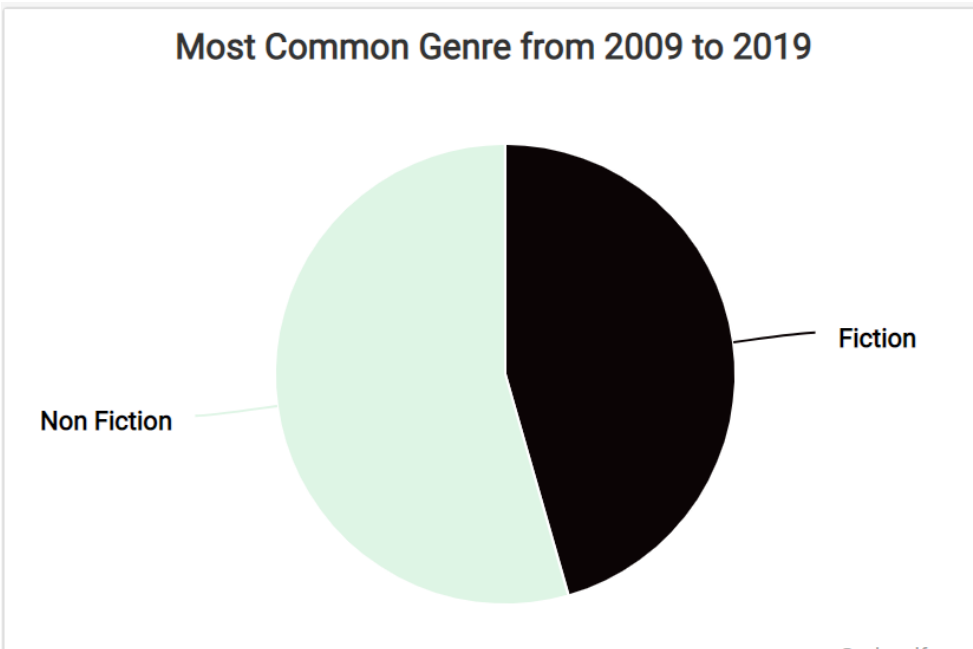

Graph2: Most popular books from 2009=2019

Most Popular Books

Most Popular Books from 2009 to 2019

By Number of Reviews

@miguelfzzz

The graph shows the most popular books based on the number of reviews on Goodreads from 2009 to 2019. "Where the Crawdads Sing" by Delia Owens is the most popular book, followed by "Gone Girl" by Gillian Flynn and "Fifty Shades of Grey" by E.L. James. Interestingly, all three books are fiction, and the top 10 includes mostly fiction genres like young adult, thriller, and romance. The only non-fiction book in the top 10 is "The Alchemist" by Paulo Coelho.

Overall, the graph suggests that fiction was more popular than non-fiction on Goodreads during this time period. It's also worth noting that the popularity of some books may be due to adaptations into movies or TV shows.

Graph3: Most common genre from 2009- 2019

Genre Breakdown

- Fiction (45.58%): This is the largest category, encompassing a wide range of subgenres like young adult, fantasy, romance, thriller, and mystery. Some possible explanations for the popularity of fiction include:
  - Escapism: Fiction allows readers to escape from the everyday and immerse themselves in different worlds and experiences.
  - Character connection: Readers can form strong emotional attachments to fictional characters, making them feel invested in the story.
  - Imagination and creativity: Fiction can spark the imagination and encourage creativity in readers.
- Non-Fiction (54.42%): This category includes a diverse array of subgenres like biography, history, science, self-help, and cookbooks. Some possible reasons for the popularity of non-fiction include:
  - Learning and knowledge: Non-fiction books can provide readers with new information and knowledge about a variety of topics.
  - Personal growth: Self-help books can offer guidance and advice on improving different aspects of life.
  - Practical applications: Cookbooks and other instructional books can provide readers with practical skills and knowledge.

Possible Explanations for the Genre Distribution

- Popularity of specific subgenres: The popularity of certain subgenres within each category, such as young adult fiction and self-help books, could be influencing the overall distribution.
- Data source: The data is based on Goodreads reviews, which may not be representative of all reading habits. Goodreads users may skew towards certain genres, such as young adult fiction and fantasy.
- Time period: The data covers the period from 2009 to 2019. Reading trends may have changed since then.

Graph4: Best books from 2009-2019

Best Books from 2009 to 2019
By Users Rating

Name	Author
Oh, the Places You'll Go!	Dr. Seuss
Harry Potter and the Chamber of Secrets: The Illustrated Edition (Harry Potter, Book 2)	J.K. Rowling
Jesus Calling: Enjoying Peace in His Presence (with Scripture References)	Sarah Young
The Very Hungry Caterpillar	Eric Carle
Brown Bear, Brown Bear, What Do You See?	Bill Martin Jr.
Dog Man: Fetch-22: From the Creator of Captain Underpants (Dog Man #8)	Dav Pilkey
Last Week Tonight with John Oliver Presents A Day in the Life of Marlon Bundo (Better Bundo Book,	Jill Twiss

Here are some of the key takeaways from the graph:

- The most popular book by sales is "Oh, the Places You'll Go!" by Dr. Seuss. This children's book has been a classic for decades, and it continues to be a popular choice for parents and grandparents.

- Other popular books include "Harry Potter and the Chamber of Secrets: The Illustrated Edition" by J.K. Rowling, "Jesus Calling: Enjoying Peace in His Presence (with Scripture References)" by Sarah Young, and "The Very Hungry Caterpillar" by Eric Carle. These books are all well-known and have been enjoyed by readers of all ages.
- It is interesting to note that the list includes a mix of fiction and non-fiction books. This suggests that there is a wide range of reading interests among the general public.
- The graph also shows that the number of books sold has increased over time. This could be due to a number of factors, such as the growing popularity of online bookselling, the increasing number of books being published, or the changing demographics of readers.

It is important to note that this graph only shows the number of books sold, not the average rating of the books. So, while "Oh, the Places You'll Go!" is the most popular book by sales, it may not be the most highly rated. Additionally, the graph only includes data from Amazon, so it may not be representative of all readers.

Overall, the graph provides an interesting snapshot of the reading habits of the general public from 2009 to 2019. It shows that a wide range of books are popular, and that the number of books sold is increasing over time.

Conclusion

Several analyses of book genres and authors from 2009 to 2019 suggest that non-fiction is more popular than fiction. This conclusion is based on data from Goodreads reviews, Amazon sales, and other sources. However, it is important to note that these findings may not be representative of all reading habits, and that other factors, such as the popularity of specific subgenres, can influence the overall distribution. Additionally, the information provided lacks details on specific books and genres, making it difficult to draw further conclusions.
